

ENSF 608 Fall 2021 – Lab 7

October 20, 2021
Dr. Emily Marasco

Recording Notice

Classes may be recorded. Recordings will only be uploaded to University approved platforms such as D2L, will only be for use by students and staff associated with the course, and will not be disseminated to a broader audience by the University.

If a student turns on their microphone or camera, or uses the public chat feature, this constitutes consent for the student's video image or sound audio to be uploaded with a recording. If a student wishes to ensure that their questions/faces/voices are not recorded in the video, they should instead use the private chat feature to ask questions.

Goals for Today

- Review Assignment 2 solutions
- Example on ternary relationships and cardinality
- Questions about Assignment 1 grades

Assignment 2 Solutions

- See recording for explanation
- Solution posted to D2L

Ternary Relationships and Cardinality

- See recording for provided example

Assignment 1 Grades
